Re: Reduction In Service

Dear Sir/Madam:

At the regular meeting of Council held on July 17, 2008, it was the unanimous consensus of Council to correspond with you to ensure that your Board is aware that any measures which may cause a reduction of service to our community causes Council grave concern.

It was noted that you are not conducting public hearings which suggests to us that the process is not interested in the views of the public, which are users of the system.

Our commercial as well as residential districts rely greatly on our present rural post office and would be hindered by any reduction in services. In addition we are truly concerned about loss of employment which may occur.

In closing we respectfully request that you take into consideration that being a Federal service all communities deserve to be provided the same service as urban users to ensure all persons are receiving fair and equitable service.

Sincerely,

Colleen Johnson
