To CPC Strategic Review,

I am very concerned about the outcome of this review.

Living in British Columbia, home of privatization and out-sourcing I have watched the dismantling of public services across the board, most destructively in Health care, Social services and the Ferry system on which this coastal province depends.

Along with it has been the demoralization and loss of dedicated employees, revolving door management; all the ills of for-profit enterprise. The public now rely on the media to shame "authorities" into action. Sincerely Carole Chambers.
