

I live rural and must deal with a PO with no Venture 1 or bank machine. Thus I pay to use a PO Box in the next town. I co rent and also must share a box with him unless I pay for a box. Now I find out as there are two houses under our rural address we technically must share a box with our landlord. This is big time discrimination as I am entitled to no privacy and must pay \$125.00 per year to engage in my livelihood EBay or lose any monies others are entitled to. (Venture 1) with no cash machine or discounts to the US.
