'Canada Post Corporation'

I wish to protest against the
Canada Postal Corp Strategic Review

I arrived - a 'British War bride' at the
renowned 'Pier 21' on August 12th 1946.

The Canadian Post Office was, and always has been
my 'life-line'. For 27 years my Mother and I maintained
a weekly correspondence - 'letters!' until her death.

For sixty-one years we have considered the Post Office
our 'mainstay' for delivering our mail and gift parcels
etc - they never failed us.

My beloved husband - a 'D' day veteran passed away
in 2006, our extended family is scattered - the 'norm'
in today's world.

My grandchildren all reside in the U.S.A. and at age
86, I am past the enjoyment of packing gift parcels, so I
rely on mailing money orders, which are very acceptable and
arrive safely on time at their destination.

Privatising is simply a 'cover up' for profit making -
the old adage 'the rich get richer'!

I can simply echo the Union - 'Hands off our P.O.!'
The present governments are ignoring our rights, -
the Senate must enforce their right to protect the

best interests of all citizens.

I am a proud Canadian, not
given to complaining as a rule but
on rare occasions such as this 'threat'
I feel it my duty to stand and
be counted.

Thanking you in anticipation of

Your kind attention,

Doreen M. Jones
