

To whom it may concern,

As a citizen of Canada I demand that MY public post office stay MY public post office. We have seen time and time again that deregulation of public post offices don't work. They result in higher costs for citizens and poorer service for outlying areas. Why are you not allowing public hearings on this review as it is a public post office? We are the true shareholders and we have the right to voice our opinions, why are you trying to do this so secretly? Big business will not deliver the customer service and efficiency that the current workers at Canada Post do because they only care about the profit and not the people. The workers at Canada Post care about the service and the Canadians they are processing and delivering the mail to.

HANDS OFF our Post Office Mr Harper, keep Canada Post.....Canadian!!
