

The town of Lumsden uses our postal services on a daily basis, for sending and receiving invoices, letters, bills, parcels etc. It is very important for the running of our Town Office that the postal services that we receive stay as they are now and do not change. We are very satisfied with the postal service. The Town of Lumsden do not want to see the closure of our Post Office or any changes that will badly effect our postal services. We believe that any deregulation of the postal service will not benefit any customers only an inconvenience for us.

Sincerely The Town of Lumsden
Jeanie Stokes
