

Dear Sirs;

Please add these <sup>6</sup> submissions  
to the Canada Post Strategic Review.

1. Maintain the exclusive privilege  
monopoly on first class letter  
mail to ensure universal service  
and universal pricing for ~~all~~ all  
Canadians regardless of where they  
live.

2. Abandon the requirement to  
operate as a ~~no~~ commercial enterprise  
and achieve specific profit targets.

3. Abandon the requirement to pay dividends to the Government of Canada and use these monies to reinvest in service to Canadians through expansion of door to door delivery and expand the corporate retail network.

4. Maintain all social policy services such as mailings for the blind, subsidies for 2nd class publications and subsidies for food mail programs for northern and isolated communities.

5. Oppose <sup>any</sup> ~~and~~ deregulation  
of Canada Post.

6. Request no changes to  
Canada Post without full  
public hearings by all  
of the Canadian public.

Thank you;

Paul J. Whiskip
